**PARADISE FOUND
WITH THE BALI TV/ARMOIRE FROM WALTERS WICKER**

Walter's Wicker, Inc., manufacturers of exclusive high-end wicker furniture for the residential and contract markets, introduces **The Bali TV/Armoire**. Constructed on a solid maple frame in a Manhattan brown finish, this striking unit features natural rattan reed door panels. Contrasting with the frame, the reed panels create an attractive linear pattern of squares at right angles to one another.

Convenient pocket doors in the top section open to reveal a TV pullout with a swivel mechanism, designed to make viewing possible from any angle in the room. The lower section of the unit features hinged swing doors. A number of drawer space alternatives are available for the interior.

Dimensions are 48"W X 27"D X 64"H. Custom options include size, interior spacing, hardware pulls and a multiplicity of custom finish choices for the frame.

Ideal for both contract and residential applications, this island beauty will transform any room into a tropical paradise.

Walter's Wicker, Inc., maintains showrooms in the D&D Building in New York and the DCOTA in Dania, Florida. They are represented in designer showrooms nationwide.
