VIEW THE EXOTIC SOUTH SEAS FROM EVERY ROOM

Window Modes Ltd., the design industry's premier source for innovative window treatments, launches a new collection of designs with the scenic South Seas as its inspiration.

Representing the centuries-old intricate craftsmanship of artisans at their finest, the South Seas collection is comprised of exotic materials that are indigenous to the region. Bamboo, rattan and tropical woods have been carefully selected and woven with island reeds emitting a realistic ambience of island life.

The collection also employs the latest technological advances in hardware such as heavy-duty cord-lock and smooth, easy roll-up devices to ensure reliable and long lasting functionality. Motorization, a major asset for commercial and large area usage, is available in both roller and roman configurations, adding an exotic touch to commercial or residential spaces.

Window Modes, Ltd. is headquartered in the D&D Building, 979 Third Avenue, New York City and is represented in major showrooms in design centers across the country.
